94430 CHENNEVIERES SUR MARNE
FRANCE

L'échantillon ci-dessous a été fourni par le client sous la dénomination :

The following sample(s) was/were submitted by the client as:

No. Dossier SGS / <i>SGS Job No.</i>	:	RN24-01159.001
No. Devis SGS / <i>SGS Offer No.</i>	:	DR24-00090
No. Commande client / <i>Order No.</i>	:	BON POUR ACCORD DU DEVIS
Description échantillon / <i>Sample description</i>	:	TOILE 100 % POLYESTER ENDUITE – Banner Sprint Front Coat 450 M1
Contact	:	M. PEREZ Julien
Date de réception des échantillons <i>Date of Sample Received</i>	:	02/02/2024
Période de test <i>Testing Period</i>	:	02/02/2024 – 20/02/2024

Tests requis / *Test Requested* :

Screening SVHC selon les dispositions suivantes :

As requested by client, SVHC screening is performed according to :

- L'approche packages consiste à rechercher les substances les plus pertinentes en fonction du groupe de matière parmi les 235+2 SVHC de la liste candidate des substances très préoccupantes à l'autorisation publiée par l'agence Européenne des produits Chimiques (ECHA) datant du 14 juin 2023 suivant le règlement REACH (CE) No 1907/2006 et de l'arrêté français du 30 août 2023.
Package approach including the SVHC with highest risk of presence according to the tested material amongst two hundred and thirty-five (235+2) substances in the Candidate List of Substances of Very High Concern (SVHC) for authorization published by European Chemicals Agency (ECHA) on and before June 14th, 2023 regarding Regulation (EC) No 1907/2006 concerning the REACH and the French decree of August 30 2023.

The present document cancels and replaces any previously issued document of the same job reference. It must be destroyed or returned to the laboratory.

Remarques / Notes :

1. Les analyses chimiques des SVHC spécifiées ont été réalisées au moyen des techniques analytiques actuellement existantes et selon les documents suivants liés aux SVHC publiés par l'ECHA :

<http://echa.europa.eu/web/guest/candidate-list-table> (Liste candidate)

Cette liste est sous l'évaluation constante de l'ECHA et peut être sujette à modification dans le futur.

The chemical analysis of specified SVHC is performed by means of currently available analytical techniques against the following SVHC related documents published by ECHA:

<http://echa.europa.eu/web/guest/candidate-list-table> (Candidate list)

The list is under evaluation by ECHA and may be subject to change in the future.

2. En accord avec le Règlement (EC) No 1907/2006, tout fabricant européen ou importateur d'articles doit notifier à l'ECHA, en accord avec le paragraphe 4 de l'Article 7, si une substance répond aux critères de l'Article 57 et qu'elle a été identifiée selon l'Article 59(1) du Règlement, si (a) la substance de la Liste Candidate est présente dans ces articles en quantité totale au-delà de une tonne par fabricant ou importateur par an et si (b) la substance de la Liste Candidate est présente dans ces articles au-delà d'une concentration de 0,1% masse/masse (m/m).

In accordance with Regulation (EC) No 1907/2006, any EU producer or importer of articles shall notify ECHA, in accordance with paragraph 4 of Article 7, if a substance meets the criteria in Article 57 and is identified in accordance with Article 59(1) of the Regulation, if (a) the substance in the Candidate List is present in those articles in quantities totaling over one tonne per producer or importer per year; and (b) the substance in the Candidate List is present in those articles above a concentration of 0.1% weight by weight (w/w).

3. L'Article 33 du Règlement (EC) No 1907/2006 exige des fournisseurs d'un article contenant une substance répondant aux critères de l'Article 57 et identifiée selon l'Article 59(1) en concentration au-delà de 0.1% masse/masse (m/m) qu'ils fournissent aux destinataires de l'article des informations suffisantes pour assurer un usage en toute sécurité de l'article, incluant au minimum, le nom de la substance de la Liste Candidate.

Article 33 of Regulation (EC) No 1907/2006 requires supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance in the Candidate List.

4. Si une SVHC est détectée au-delà de la limite de report, il est conseillé au client d'identifier la partie de l'article qui contient la SVHC ainsi que sa concentration exacte en demandant une analyse quantitative supplémentaire au laboratoire.

If a SVHC is found over the reporting limit, client is suggested to identify the component which contains the SVHC and the exact concentration of the SVHC by requesting further quantitative analysis from the laboratory.

Résultats (par groupe organique) / *Test Results (per organic group):*

No. SVHC	Nom de la Substance <i>Substance Name</i>	CAS No. / EC No.	LR (%)	Concentration (% w/w)
				OM1
-	SVHC testées Groupe organique / <i>Tested SVHC Organic group</i>	-	-	ND

Notes:

1. ND = Non détecté (inférieur à LR). ND est indiqué pour la substance SVHC.
ND = Not detected (lower than RL). ND is denoted on the SVHC substance.
2. Les tableaux ci-dessus reportent uniquement les SVHC détectées au-delà de la limite de report (LR). Pour les SVHC inférieures à la limite de report (LR), se référer aux tableaux des SVHC testées par groupe de matière en annexe.
The table above only show detected SVHC. SVHC that are below RL are not reported. Please refer to Appendix for the full list of tested SVHC.
3. Les résultats sont exprimés en concentration de SVHC par groupe de matière homogène déterminés et testés au laboratoire. La fraction massique sur l'article entier n'est pas prise en compte. Le résultat est calculé à partir de la masse de la plus petite partie du groupe de matière. Des analyses supplémentaires sont recommandées afin de connaître la concentration exacte de SVHC dans chaque composant individuel.
Test result that shown as per test group is the actual concentration from laboratory testing. The weight fraction as per whole article is not considered. The test result is calculated by minimum sample weight. Confirmation testing is recommended as to understand the exact content of SVHC in each individual component.

(1) Assays subcontracted in a SGS laboratory

(2) Assays subcontracted in a partner laboratory.

Abbreviations ME or MO described within the field "parameters" of this report mean "Internal method" (adapting from the reference text if described hereinafter)

The testing report only concerns materials or products submitted for assay. The duplication of this document is only authorized in its entirety without the written permission of the laboratory. The present report is issued by the company in accordance with its general conditions of services. (Copy available on request).

This document is issued by the Company subject to its General Conditions of Service available on request or accessible at <http://www.sgs.com/en/Terms-and-Conditions.aspx> and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at <http://www.sgs.com/en/Terms-and-Conditions/Terms-e-Documents.aspx>

Attention is drawn to the limitation of liability, indemnification and jurisdiction and to the use of SGS and COFRAC brand-names issues defined therein. Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be reproduced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.*

Unless otherwise stated the results shown in this test report refer only to the sample(s) tested and such sample(s) are retained for 60 days only (indeed less depending on kind of sample(s)) or more than 60 days according to particular client's request.

WARNING: The sample(s) to which the findings recorded herein (the "Findings") relate was(were) drawn and / or provided by the Client or by a third party acting at the Client's direction. The Findings constitute no warranty of the sample's representativeness of any goods and strictly relate to the sample(s). The Company accepts no liability with regard to the origin or source from which the sample(s) is/are said to be extracted.

(1) Assays subcontracted in a SGS laboratory

(2) Assays subcontracted in a partner laboratory.

Abbreviations ME or MO described within the field "parameters" of this report mean "internal method" (adapting from the reference text if described hereinafter)

The testing report only concerns materials or products submitted for assay. The duplication of this document is only authorized in its entirety without the written permission of the laboratory. The present report is issued by the company in accordance with its general conditions of services. (Copy available on request).

This document is issued by the Company subject to its General Conditions of Service available on request or accessible at <http://www.sgs.com/en/Terms-and-Conditions.aspx> and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at <http://www.sgs.com/en/Terms-and-Conditions/Terms-e-Documents.aspx>

Attention is drawn to the limitation of liability, indemnification and jurisdiction and to the use of SGS and COFRAC brand-names issues defined therein. Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be reproduced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.*

Unless otherwise stated the results shown in this test report refer only to the sample(s) tested and such sample(s) are retained for 60 days only (indeed less depending on kind of sample(s)) or more than 60 days according to particular client's request.

WARNING: The sample(s) to which the findings recorded herein (the "Findings") relate was(were) drawn and / or provided by the Client or by a third party acting at the Client's direction. The Findings constitute no warranty of the sample's representativeness of any goods and strictly relate to the sample(s). The Company accepts no liability with regard to the origin or source from which the sample(s) is/are said to be extracted.

Ce document annule et remplace le document de même numéro émis antérieurement. Celui-ci doit être détruit ou retourné au laboratoire.
 The present document cancels and replaces any previously issued document of the same job reference. It must be destroyed or returned to the laboratory.
